Subject: QFR Responses from February 1 Pavillion Hearing

Ramona,

Attached is the post-OMB/CEQ review version of the QFR responses from the February 1 House Science hearing on Pavillion (Jim testified at this one). We made a number of changes in response to comments from OMB and CEQ, as indicated in the text and margins.

Jim is reviewing this over the weekend and will address the remaining outstanding issues. Since EPA is long overdue with the responses, we would like to get this out the door early next week.

This has been a highly coordinated effort between Region 8 and ORD. I am comfortable with the current version and recommend that we give it the go-ahead after Jim provides his input. Cindy has a copy but I do not know if she has had a chance to look at it.

Please let me know if you want to review this before it goes out.
Fred
